

DMG Series

Manual Screen

DMG092

Daveco is pleased to introduce **slow retracting**, manual pull-down screens. The 92 inch, **16/9 aspect** ratio, high quality screens are made of a glass fiber material to display true and accurate colors, smooth imaging and wide angle uniform brightness. Each screen is coated with a washable surface and is rated at a **1:0 gain** ratio with a visual angle of 100 degrees.

Hang and play is made possible with the included **wall or ceiling brackets** and a set lock so that the screen can easily be lowered to any preferred level.
