

## Pet-Immune PIR Motion Detector

The MD9100 uses special infrared probe techniques and intelligent analysis algorithms to distinguish between interference signals and body movements to prevent false alarms caused by pets. An automatic temperature compensation and an anti-draft technology ensures that the MD9100 will perform effectively in a multitude of diverse environments. Not only reliable but energy efficient, the MD9100 is also easy to use.

### What's in the box?

- |                  |                       |
|------------------|-----------------------|
| 1 x MD9100       | 2 x Double-sided tape |
| 1 x Wall bracket | 2 x AA batteries      |
| 1 x Screw kit    | 1 x User manual       |

Works with the following Smanos systems  
W100 / W100I / W020 / W020I / L020 / S105 / X330
