

PIR Motion Sensor

The highly effective MD2300 is a passive infrared (PIR) sensor that accurately measures infrared (IR) light radiating from objects in its field of view to determine if there is an intrusion. In the case of a problem, the MD2300 will alert and trip the alarm system which will then go on to send notifications to your smartphone.

What's in the box?

- 1 x MD2300
- 1 x Wall bracket
- 1 x Screw kit
- 2 x Double-sided tape
- 2 x AA batteries
- 1 x User manual

Works with the following Smanos systems
W100 / W100I / W020 / W020I / L020 / S105 / X330
