## Smart Video Doorbell

The Smanos Video Doorbell plays an integral part in the Smanos home security arsenal. Beyond being stylish and easy use, the 18-DB20 is a first line of defense that will advise you of anyone approaching your house.

It can either be connected to and complement the 18-K1, our advanced total home security system, or be used on "stand-alone basis" with the greatest of ease. Installed and powered by connecting to the existing doorbell wires, the 18-DB20 features a back-up battery in case of power failure.

Instant notifications will be sent to you and your family whenever the built-in motion sensor detects movement or whenever someone presses the doorbell. Using your smart phone you can see and have a two-way conversation with the visitor, no matter where you are in the house or in the world.

Furthermore, you may also proactively wake up the Smanos Doorbell on demand simply to monitor what might be happening on your property to be assured that all is well, thanks to Smanos.

### What's in the box?

1x DB-20 Smart Video Doorbell  
1 x Power Regulator

1 x Waterproof Case  
1 x User manual
