

# LBS5

## Bluetooth STEREO Table Top Music System

The LBS5 is a compact active Bluetooth stereo speaker with an FM radio that yields clean and precise sound even at high levels. LBS5 stereo system offers user-friendly features such as built-in Bluetooth wireless technology to enjoy music from supported devices, such as smart phones, digital audio players, and personal computers. Features also include a USB port to connect a USB stick, another USB charging port to charge your phone or MP3 player and more, and an auxiliary port for non-Bluetooth devices.
